PROFILE

As a proficient Full-Stack Developer, I specialize in both front-end and back-end technologies, crafting innovative, high-performance web applications. My broad expertise in programming languages and frameworks ensures the delivery of robust, scalable solutions. With a commitment to continuous learning, I stay at the forefront of industry trends. My strong collaboration, communication, and leadership skills enable effective team management and successful project execution

EDUCATION

Zarqa University

B S in Software Engineering

2020-2023

WORK EXPERIENCE

Database Management Intern

Pro Tech Company
June 2020 - August 2020

- Participated in a three-month internship focusing on database management.
- Gained hands-on experience with SQL Server for database administration and management.
- Assisted in designing, implementing, and maintaining database systems.
- Worked on optimizing queries and ensuring data integrity.
- Collaborated with the development team to integrate database solutions into applications.
- Acquired skills in troubleshooting database issues and providing solutions.

LANGUAGES

- English (professional)
- Arabic (Native)

TECHNICAL SKILLS

Back-End

- Node.js ,Express
- ASP.net (mvc)

Front-End

- Bootstrap
- Java Script
- React.js

Database

- MongoDB
- MySQL
- PostgreSQL
- SQLServer

Other

- Version Control(git, git hub)
- Figma
- restful APIs
- Software Testing (unit testing)
- OOP Programming
- Agile Methodologies'

PROJECTS

1.Student Tracking System

Project Link: ([Demo](#)).

Demo Data: User name: Ahmad password: Ahmad

Documentation: ([Link](#))

The Student Tracking System is a web application designed to streamline communication between parents and teachers by providing real-time updates on students' academic performance, behavior, and attendance.

Technologies:

- Front-End: React.js, Bootstrap
- Back-End: Node.js, Express
- Database: MongoDB

This project highlights my ability to create scalable and intuitive applications using modern technologies.

2.Melody Hub

Project Link: ([Demo](#)).

Melody Hub is a music streaming web application designed to provide an exceptional user experience. Developed with a strong front-end and backend infrastructure, this project showcases my skills and growth in web development.

Key Features:

- User-Friendly Interface: Created with React and styled using Bootstrap for a sleek and intuitive design.
- Robust Backend: Implemented with Node.js, Express, and PostgreSQL to ensure a reliable and scalable server.

This project represents a significant achievement in my career, made possible by the dedication and hard work of my team, Tech Tunes.
